Steel Stacker Drum/Roll/Reel Forks For Counter Balanced Powered Lift Models Black

MODEL S-2CB-DRR-FK

Fork Truck Attachments / Drum Roll Reel Forks

PRODUCT OVERVIEW

Picking up and moving round items on standard flat forks is often difficult and always dangerous. Now, with a fork set tilted to the center of the lifting unit, that difficulty is diminished. The inclined design of the forks creates a more stable lifting experience that limits movement and jostling of the products. Forks are constructed of steel and are simple to attach for immediate use. Powder coat finish diminishes chances of possible product abrasion and adds a baked in toughness.

KEY FEATURES

- Design increases workplace safety
- Sleek finish limits abrasions
- Tilted design creates a concave configuration
- Simple connecting to new or existing lifting units

CORE PRODUCT DATA

ASSEMBLED WEIGHT	ASSEMBLED SIZE	SHIP WEIGHT
140 lbs	12" W x 44" L x 16" H	175 lbs
PACKAGE 1 SIZE	**COLOR / FINISH**	**FREIGHT TYPE**
40" W x 48" D x 12" H	Black	LTL Palletized

AVAILABILITY Available

QUICKSHIP: YES
