Steel Electric Order Picker 500 Lb. Capacity Blue

MODEL EOP-500

Ergonomic Solutions / Electric Order Pickers

PRODUCT OVERVIEW

The electric order picker is made of all steel and allows personnel to access material stored in elevated locations faster, safer, and more efficiently than traditional means. Features includes bubble levels for proper leveling and safety stops to mechanically prevent the platform from lowering during maintenance. Compact, stable lifts are designed to maneuver in tight spaces and to provide simple, push-button elevator activation. A manual platform emergency lowering valve and slip-resistant deck are standard. The unit rolls on polyurethane swivel and fixed casters.

KEY FEATURES

- Order picker is electric and allows access to material stored in elevated locations
- Includes bubble levels for proper leveling and safety stops to prevent lowering
- Designed to maneuver in tight spaces and provide elevator activation
- Features a platform emergency lowering valve and a slip-resistant deck
