Steel Forklift Broom Pro Series 72 In. Projection Black

MODEL VPS-72

Fork Truck Attachments / Fork Truck Mounted Brush Sweepers

PRODUCT OVERVIEW

A forklift broom is a perfect fit to the maintenance and construction facilities. The polypropylene bristles provide a strong and durable unit throughout both indoor and outdoor use. Rows of brush sections can be taken out for a more preferred setup. The long length provides a time saving, efficient unit that will cover an abundance of surface area with less travel time. The simple forklift attachment allows the unit to be used with very short setup time. For best use, utilize the attached fork pockets and connect the safety chains. Once in place, the unit can be maneuvered to gather debris that has been left throughout the workplace.

KEY FEATURES

- Steel frame construction with built in fork pockets for maneuverability
- Polypropylene brushes for strength and sustainability
- Durable for indoor or outdoor use
- Long broom length for time efficiency
