

Heavy Density Polyethylene Add-A-Level Add-On 96 In. x 24 In. x 2-5/8 In. 250 Lb. Capacity Black

MODEL P-2496-2.625-A

Ergonomic Solutions / Add-A-Levels

PRODUCT OVERVIEW

The add-A-level raises workers to an optimum ergonomic height. Constructed from a heavy-density polyethylene resin which is one-hundred (100) percent recycled. The flow-through grid design permits liquids and small scrap to drain away. The add-A-level is also used as a storage platform to keep products off wet floors. Add-on units come standard with vertical connectors to allow units to be stacked and locked together. There are many different configurations available.

KEY FEATURES

- Raises workers to an optimum ergonomic height
- Heavy-density polyethylene resin is one-hundred (100) percent recycled
- Flow-through grid design permits liquids and small scrap to drain away
- Lightweight for simple handling
